CRG

(What we think are)
~~Best~~ Good practices in bioinformatics

May 7th, 2018

CRG

Objectives for the trainees

- Introduction to specific terminology.
- Where to find resources.
- Guidance to a more efficient use of the CRG resources.

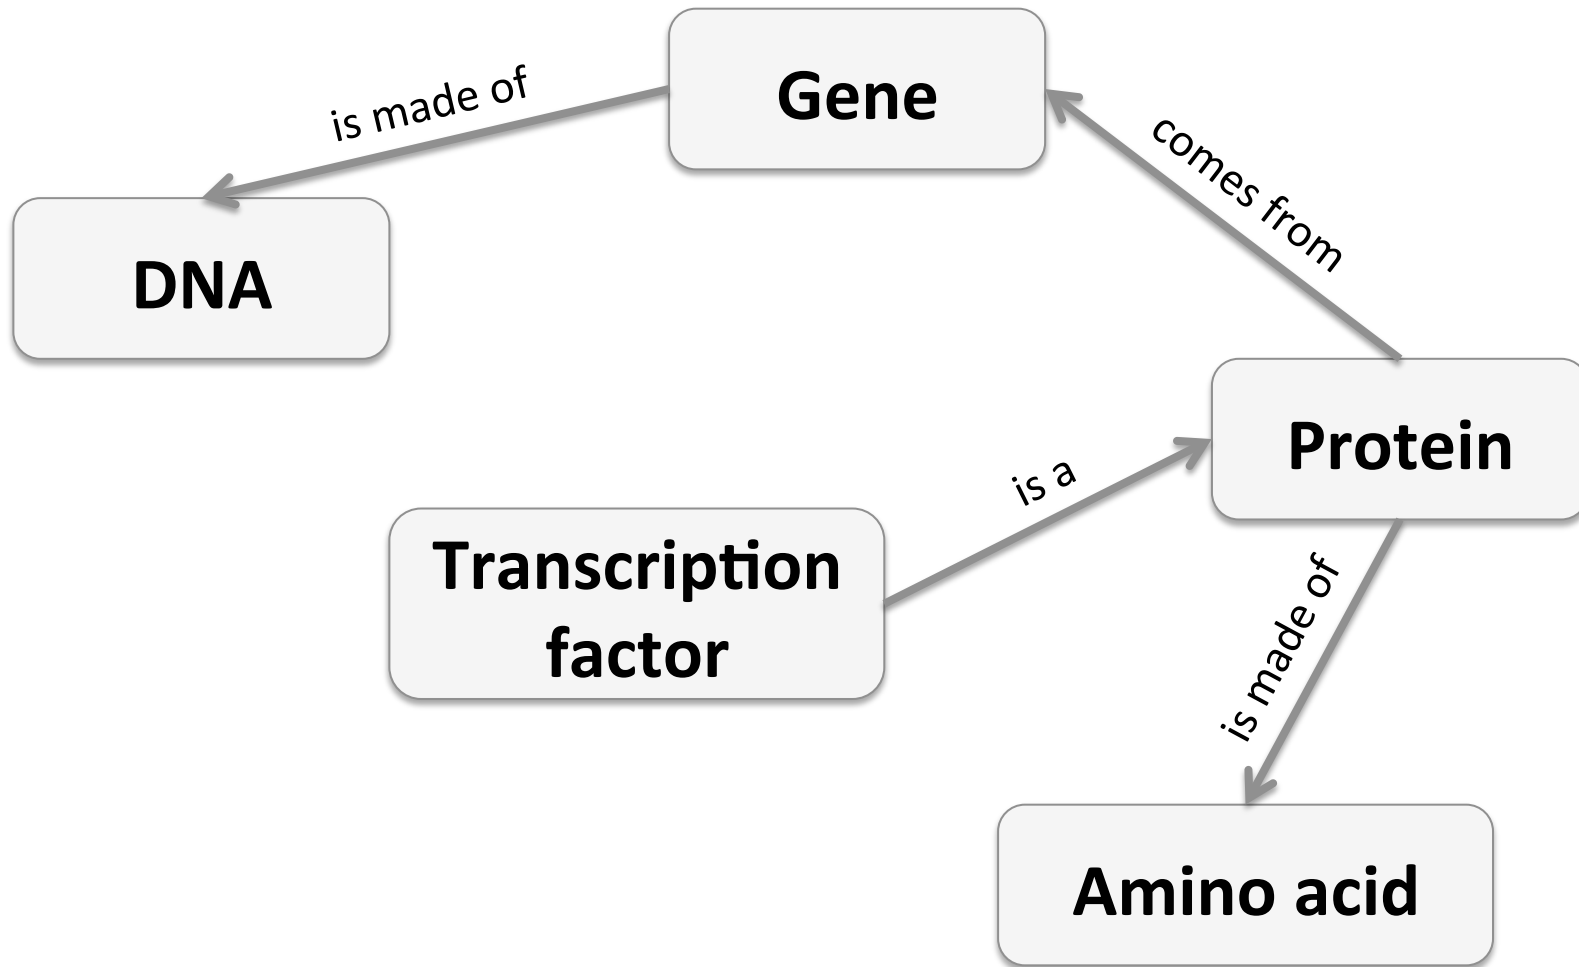

Objectives for the trainers

- Collect feedback on all topics:
 - what else is needed on the trainee side?
 - organization of future hands on sessions based on trainees needs and interests.

Topics and schedule

10:10-10:40	Project handling
10:40-11:15	Version control
11:15-12:00	Data / File handling
12:00-12:20	BREAK
12:20-13:10	Resources at CRG: software and database
13:10-14:00	Pipeline
